WAYNE TOWNSHIP  
BUTLER COUNTY OHIO

## WAYNE TOWNSHIP

BY DANIEL HOIT, TOWNSHIP/ZONING ADMINISTRATOR

# Administrator's Actions

Hello! First I'd like to introduce myself, my name is Daniel Hoit and I am your new Township and Zoning Administrator. I live here with my Beautiful wife Ashley and two kids; Aubrey and Aiden! By no means am I new to Wayne Township, being raised here, I graduated from Edgewood in 2008 and then went off to college. I received my Associates of Applied Science from The Ohio State University in 2010. During my time in College, I managed to get my introduction into government work. I got to see the ins and outs of local government every day by interning for

the Butler Soil and Water Conservation District and the

City of Middletown, Engineering Dept. during my summers. Shortly after graduation, I was hired on with the Butler County Engineers Office. The past five years with BCEO have consisted of Storm water inspections of new construction as well as the engineering review with the driveway and easements on properties. I was also in charge of all the driveways and right-of-way permits within Butler County. When I got this job, I was happy to be coming home and be able to serve my community even more. This isn't the first time, I've been able to serve my community! I am an active member of the Wayne Township Fire Department. And I have been since 2008. I am currently serving as the Fire Captain. MY time with the Fire Dept. has been filled with meeting many residents already, but usually at their worst time. Within the Fire Dept., I am responsible for State Reporting, Grant Writing and Fire Prevention. I single handily started our Fire Prevention Program and with the help of a grant, we were able to obtain "Sparky", the fire dog! IF you're at a township event, I'm sure Sparky will be around! Give him a wave, give him a hug; he's happy to see you too!

As your administrator, I'm here to assist the residents! If you need to get in touch with zoning or have a concern to pass along to the trustees, I'm your guy! Part of my job is to make sure the Township runs smoothly. With that being said you may not always see me in the office! I'm here to help in any ways possible! You can see me on the side of the road flagging for our Road Crew, helping clear the roads in Winter Time in a Snow Plow or maybe see me driving the life squad on the way to an emergency.

I am here to help you, the residents of Wayne Township! Feel free to stop by my office in the township hall to meet me and get to know me! Or Call me and send me an email! I'd love to hear from you!

## CHIEFS BRIEFS

### Doug Hoit, Fire Chief

Hello Residents of Wayne Township. Winter is upon us and I would like to remind everyone to have your chimneys cleaned and checked, especially on wood burning stoves.

Also make sure that you have changed the batteries in your smoke detectors. They could save the lives of your loved ones in times of need. Wayne Township Fire Department is still accepting donations for the Grain Bin Rescue tube to help rescue victims in grain bins. There is one other tube in Butler County and it's in Reily Township. We are half way to our goal and would like to thank everyone who donated already.

I would like to thank everyone for coming to our annual fish fry in October. We had a good turnout as always. It's always great for the whole fire dept. and life squad to get to see and talk to the residents when we're not in an emergency situation, we like to think the fish fry helps bring the residents together.

Everyone stay safe and warm this winter.

Merry Christmas and a happy New Year.

## TRUSTEE MEETINGS

The Wayne Township Trustees regular meeting dates are the 3rd Monday of each month. All meetings are at 7 p.m. and are held at the Township Hall. Every meeting is open and all township residents are encouraged to attend.

## FROM THE PRESIDENT

By Larry V. Setser, President of the Board of Trustees

Hard to believe that Fall is here and Winter on the way. Hope everyone had a good summer even with all the heat.

I would like to put out a special thanks to Trish Meeks, Steve Countryman, and Ed Dullie for their tireless work in getting Wayne Township on the right track and moving forward. The work that Ed and Steve put in on the Jacksonburg and Route 73 intersection with the county and state will get us a safe intersection which is long overdue.

I especially want to thank Ed for his tireless work on Grants and managing the Zoning in a professional way. This has opened doors for the county to work with us. It has helped in so many ways that it's hard to document. So my special thanks go to Ed for a great job well done. He leaves Daniel Hoit big shoes to fill while taking over the Administrators job along with the Zoning Administrators job.

I would like to thank the Butler County Fair Board for the wonderful Fair we had this year. All the modifications helped to make it one of our best. It is always great to have our kids participating in 4H, and FFA with their animals and many projects. This is our future and to have a well ran Fair is a blessing.

School is back in session so please give the busses all the room they need as they carry our families and township residents.

Thanks also to the road crew for the great job that they are doing and for making their shop and outside area a clean, safe environment. to work in. Also would like to thank the summer help (Katie Hiltbrand, and Lucas Young) with the fine job that they did.

If you see Ed please thank him for all he has done for the Township.

Have a great Year.

# CAPTAINS CALL

## By Cindy Phillips, Squad Captain

Hello Residents! I hope you have all enjoyed the beautiful weather we have had recently. I know it won't be long and the temperatures will drop, and the holidays will be upon us. Thanksgiving, as I write this is only 18 days away! I have noticed more that time is a very precious commodity with our responsibilities between family and work, and finding spare time becomes increasingly difficult. So with the holidays and time on my mind, I have decided to share a few things I am thankful for. First and foremost I am thankful for you, the members of the community, who have consistently supported our department over the years, whether it be a friendly wave as we go by, seeing you at our fish fry, or your support at the voting booth. We enjoy the community we serve and have always felt your support. I also want to thank all my colleagues on the fire department who are willing to give their time to help keep our community safe. Emergencies are never scheduled out in advance, and I am thankful that when someone in our community needs our help that these guys are willing to stop what they are doing and help. Without them volunteering their time, we wouldn't have a department to help you.

As I close, I would like to remind you all, if you have any questions or concerns, feel free to contact the department at 424-9710, leave a message and we will get back to you as soon as possible. I hope you all have a safe and happy holiday season. ❄️

## ROADS

### By Chris Marcum, Road Superintendent

I would like to start out by introducing myself, my name is Chris Marcum, my wife and I have lived in the township for twelve years now and love it here, my two daughters are eleven and twelve years old and are in sports and 4-H. My work history is when I had graduated high school I went to work at Don Cisle contractors as a mechanic and general labor, I stayed there for almost nine years until they went out of business. I went on to work at Mt. Pleasant blacktop as a mechanic for one and half years until a sub contractor at Ak Steel had called me about working with them, I went to work with Patriot Machining and Maintenance Services as their head mechanic for four and a half years. I had heard the township was looking to do some hiring, so I had put the application in and waited, when I got the call I was a nervous wreck, I thought what better place would there be to work in your own community to help in just making it look better and being this close to home. I hope that you as residents have realized the hard work and determination that has been put in this year thus far, with that being said I thank you for your patience in our work zones when we are doing maintenance on the roads. We have a lot more work to go and ask for your patience in some up coming road closures, we will have signs placed well before the date, so you can make alternate routes. Winter is fastly approaching, so watch out for deer as they will be moving more when the weather gets colder, also we will be plowing the roads before too long if you see us out, please give us room do our jobs, we all want to go home safe to our families. If you have any concerns with roads or if you see something that needs fixed please call or stop by thank you. ❄️

## IS YOUR HOUSE VISIBLE IN AN EMERGENCY???

Did you know that in certain emergencies, every second counts? Emergency personnel don't know where every single person lives! They rely on addresses. IF your address isn't clearly posted or visible, the first responders could pass up your house, adding more time to the response.

The Wayne Township Fire Department is selling reflective Address signs available to you for \$20!

The numbers on the sign will be 3 inches tall and reflective when hit by headlights!

To order, please email your request to:  
[dhoit@waynetownship.net](mailto:dhoit@waynetownship.net) or call (513)424-9661.
