Good afternoon Trustee Taylor / Mayor Gorsuch,

Attached are the files associated with the drainage elevations along US127 in your respected township / village. As suspected, we currently do not have what we feel is adequate elevations allowing us to "re-route" the current flow and send it to the north channel. A portion of that drainage ditch is within the village limits and therefore the village has jurisdictional rights over that portion *as well as* the liability for any issues a change of direction may cause if you choose to do so.

Should you have any further questions / needs, please feel free to contact myself or Highway Administrator Doug Gruver @ 513-933-6606

Respectfully,
Shawn
